LGSA NSW Election Priorities 2011

I have long been an advocate of supporting Local Councils in making decisions on development and environmental issues. I will be supporting to the Councils in the future to redress the unfair way developers have influenced Government against local knowledge and commitment. I will continue to ensure the next Government pushes responsibility back to local communities in decision-making.

In the information below, you will find I have regularly urged the Government and the people of NSW to improve Local Government powers in terms of governance, environment, maintenance, community, and legislative support. Here are a few examples from 2010 where I supported Local Governments to achieve their six key policies:

As mentioned previously, I will endeavour to uphold this high level of support for Local Governments (including your six key policies) upon reappointment to the Legislative Council as Parliamentary Leader of Family First NSW.

I look forward to working together in the near future.

Should you wish to discuss any of these policies, please do not hesitate to contact me.

Yours sincerely,

Rev. The Hon. Dr Gordon Moyes, AC MLC
Parliamentary Leader, FAMILY FIRST PARTY NSW
